TCORE Services include:

- Confidential HIV/HCV/STI counseling and testing
- Short term health navigation for PrEP and infectious disease treatment
- Stress management and coping skills development
- Opportunities to find community
- Support and navigation through medical and/or social transition
- Support while coming out
- Guidance and advocacy while responding to discrimination

TCORE is a program designed to nurture and advance the well-being of trans, gender-expansive, and questioning community members through individualized support and connection to resources.
